

Oil & Gas Research Program- Grant Round 43- Application Summaries						
Application Number	Application Title	Applicant	Project Duration	Summary of Project	Funding Requested	Total Project Cost
G-43-D	Development of Testing Methods and Design of Inorganic Scale Treatments in Williston Basin, ND	Department of Petroleum Engineering, University of North Dakota	36 Months	This project will study and develop more effective methods to prevent and treat inorganic scale buildup in Bakken wells through laboratory testing, modeling, and data analysis, with the goal of improving oil production, reducing maintenance costs, and supporting commercialization of improved scale inhibitor technologies for the Williston Basin.	\$435,433.23	\$1,060,205.60
