

Oil & Gas Research Program- Grant Round 56- Application Summaries						
Application Number	Application Title	Applicant	Project Duration	Summary of Project	Funding Requested	Total Project Cost
G-56-A	Agricultural Carbon Capture in Western ND	ND Natural Resources Trust	2 Years	This project evaluates how managed grazing can increase carbon sequestration in North Dakota grasslands to reduce the environmental footprint of oil and gas development. The research aims to support carbon markets, strengthen ESG initiatives, and benefit both the state's energy and agricultural industries.	\$500,000	\$1,051,000
