

Oil & Gas Research Program- Grant Round 53- Application Summaries						
Application Number	Application Title	Applicant	Project Duration	Summary of Project	Funding Requested	Total Project Cost
C-53-A	Creedence Energy Services EOR Biosurfactant Applications	Creedence Energy Services/Locus Bio-Energy	18 Monts	This project evaluates a novel biosurfactant treatment to increase oil production from declining wells by improving oil recovery and reducing production costs. The technology aims to provide a lower-cost alternative to refracturing while extending the productive life of North Dakota oil wells.	\$205,750	\$622,288
