

Outdoor Heritage Fund Grant Application

Instructions

After completing the form, applications and supporting documentation may be submitted by mail to North Dakota Industrial Commission, ATTN: Outdoor Heritage Fund Program, State Capitol – Fourteenth Floor, 600 East Boulevard Ave. Dept. 405, Bismarck, ND 58505 or by e-mail to outdoorheritage@nd.gov. It is preferred that both a hard copy and electronic copy are submitted.

You are not limited to the spacing provided, except in those instances where there is a limit on the number of words. If you need additional space, please indicate that on the application form, answer the question on a separate page, and include with your submission.

The application and all attachments must be received or postmarked by the application deadline. You will be sent a confirmation by e-mail of receipt of your application. You may submit your application at any time prior to the application deadline. **Applicants are strongly encouraged to submit applications prior to the deadline for staff review in order ensure that proposals will be complete when submitted on deadline date.** Incomplete applications may not be considered for funding.

Please review the back of this form to determine project eligibility, definitions, budget criteria, and statutory requirements.

Project Name	Belcourt Lake Park Rejuvenation Project
Name of Organization	Turtle Mountain Band of Chippewa
Federal Tax ID#	EIN #45-0223071
Contact Person/Title	Mr. Lyle Poitra, TMBCI Developer
Address	Box 900
City	Belcourt
State	North Dakota
Zip Code	58316
E-mail Address	lylepoitra1@yahoo.com
Web Site Address (Optional)	www.tmchippewa.com
Phone	701-477-2647
Fax # (if available)	701-477-0916

List names of co-applicants if this is a joint proposal

MAJOR Directive:

Choose only one response

- Directive A.** Providing access to private and public lands for sportsmen, including projects that create fish and wildlife habitat and provide access for sportsmen;
- Directive B.** Improving, maintaining and restoring water quality, soil conditions, plant diversity, animal systems and by supporting other practices of stewardship to enhance farming and ranching;
- Directive C.** Developing, enhancing, conserving and restoring wildlife and fish habitat on private and public lands; and
- Directive D.** Conserving natural areas and creating other areas for recreation through the establishment and development of parks and other recreation areas.

Additional Directive:

Choose all that apply

- Directive A.**
- Directive B.**
- Directive C.**
- Directive D.**

Type of organization:

- State Agency
- Political Subdivision
- Tribal Entity
- Tax-exempt, nonprofit corporation.

Abstract/Executive Summary.

Summarize the project, including its objectives, expected results, duration, total project costs and participants. (no more than 500 words)

The Turtle Mountain Band of Chippewa proposes to rejuvenate the Belcourt Lake Park area which is located in the heart of the Turtle Mountain Chippewa Reservation. The Park was once a hub for fishing, swimming, bird watching, picnicking and other recreational activities. The total amount requested from the ND Outdoor Heritage Fund is \$48,567 and the tribe will contribute \$20,000. The amenities to be purchased and erected include a Rest Room facility, a picnic arbor, four (4) boat docks and fencing around the playground perimeter. The tribal Natural Resources Department, with support from the tribal Senior & Youth program, will be responsible for all purchasing, construction, and maintenance of the Belcourt Lake Park amenities.

Project Duration: Six (6)

Indicate the intended schedule for drawing down OHF funds.

At the end of the six months once construction activities are completed.

Amount of Grant request: \$ 48,567

Total Project Costs: \$ 68,567

Note: in-kind and indirect costs can be used for matching funds.

Amount of Matching Funds: \$

A minimum of 25% Match Funding is required. Indicate if the matching funds will be in-kind, indirect or cash. Please provide verification that these matching funds are available for your project. Note that effective as of July 1, 2015 no State General Fund dollars can be used for a match unless funding was legislatively appropriated for that purpose.

Amount of Match	Funding Source	Type of Match
\$ 15,000	Tribal Natural Resources	<input checked="" type="checkbox"/> Cash <input type="checkbox"/> In-Kind x <input type="checkbox"/> Indirect
\$ 5,000	Tribal Historic Preservation	<input checked="" type="checkbox"/> Cash x <input type="checkbox"/> In-Kind <input type="checkbox"/> Indirect
\$		<input checked="" type="checkbox"/> Cash <input type="checkbox"/> In-Kind <input type="checkbox"/> Indirect
\$		<input checked="" type="checkbox"/> Cash <input type="checkbox"/> In-Kind <input type="checkbox"/> Indirect
\$		<input checked="" type="checkbox"/> Cash <input type="checkbox"/> In-Kind <input type="checkbox"/> Indirect
\$		<input checked="" type="checkbox"/> Cash <input type="checkbox"/> In-Kind <input type="checkbox"/> Indirect

Certifications

x I certify that this application has been made with the support of the governing body and chief executive of my organization.

x I certify that if awarded grant funding none of the funding will be used for any of the exemptions noted in the back of this application.

Narrative

Organization Information – Briefly summarize your organization’s history, mission, current programs and activities.

Include an overview of your organizational structure, including board, staff and volunteer involvement. (no more than 300 words)

The TMBCI Tribal Government oversees the Department of Natural Resources (NR) who manages the wildlife and fish, bison, parks and recreation, agricultural, and other natural and cultural resources on Turtle Mountain Tribal lands. The NR Department maintains a full-time staff of ten (10) individuals, and partners with local training programs such as Summer Youth, Adult Workforce Training, and Experience Works (tribal elders age 55 and over) to assist the NR throughout the year.

Tribal Natural Resources Mission Statement: The Turtle Mountain Band of Chippewa is committed to preserving and protecting the natural and cultural resources of the Turtle Mountain Indian Reservation for the benefit of present and future generations of tribal members and for those who visit our Reservation.

As a tribal nation, it is an obligation and duty to protect our natural resources. It is inherited within our traditional beliefs that have been passed down for generations. It is also critical that we pass down to our youth the importance of preserving our natural resources. This is best practiced through “holistic teachings” and the integration of educational and cultural programming, recreational and wellness activities, and outdoor experiential learning.

Purpose of Grant – Describe the proposed project identifying how the project will meet the specific directive(s) of the Outdoor Heritage Fund Program

Identify project goals, strategies and benefits and your timetable for implementation. Include information about the need for the project and whether there is urgency for funding. Indicate if this is a new project or if it is replacing funding that is no longer available to your organization. Identify any innovative features or processes of your project. Note: if your proposal provides funding to an individual, the names of the recipients must be reported to the Industrial Commission/Outdoor Heritage Fund. These names will be disclosed upon request.

For tree/shrub/grass plantings: provide a planting plan describing the site design, planting methods, number of trees/shrubs by species and stock size, grass species and future maintenance. A statement certifying that the applicant will adhere to USDA-NRCS tree/shrub/grass planting specifications along with the name of the governmental entity designing the planting may be substituted for a planting plan.

For projects including Section 319 funding: provide in detail the specific best management practices that will be implemented and the specific projects for which you are seeking funding.

For projects including fencing: A minimum cost share of 40% by the recipient is preferred. Include detailed information on the type of fencing to be installed, whether funding is requested for boundary fencing, new or replacement of existing fencing, and/or cross fencing.

The primary purpose of the Belcourt Lake Park Rejuvenation project is to install amenities within the site that will include fishing docks, a rest room facility, and a picnic arbor w/cement slab.

The Turtle Mountain Band of Chippewa Tribal Government recently passed a resolution to support the restoration and development of the Belcourt (Fish) Lake, named the “Belcourt Lake Rejuvenation” Project. Belcourt Lake is the tribe’s largest Lake and is located 3 miles north of Belcourt, adjacent to a newly paved BIA Road and paved Bike/Walk Path. The Belcourt Lake is accessible to tribal members and will be ideally suited for Park development which will include facility and infrastructure improvements, fishing docks/piers, shoreline restoration, community restrooms, playground equipped with commercially safe equipment, and youth Pow Wow Arbor.

The Belcourt Lake has traditionally been a hub for recreational activities and once hosted a beachfront park with a fishing pier, roundhouse community arbor, and a playground. All amenities have since been removed due to age and dilapidation, and lack of community sponsorship due to limited resources. The tribal Natural Resources Department has been an advocate for renewing interest in reviving the Belcourt Lake front property, which is owned and managed by the Tribe.

The Belcourt Lake includes opportunities for fishing, walking and nature trails, swimming and water sports, individual and group picnic facilities, and wildlife viewing opportunities -- as these may be developed carefully within the context of an integrated stewardship and management plan.

The TMCC College Carpentry Instructor along with several carpentry students will build the rest rooms. It will be a single 10 x 24 building with two separate areas – one female, one male. Jerry Bercier Septic Services will put in the septic system units along with pouring the concrete floor. These local vendors constructed the three (3) rest rooms that are located at Sky Chief Park. Stainless Steel toilets will be purchased from Ferguson’s based in Minot, ND.

The Picnic Arbor will be built with the assistance of the senior and youth employment program funded by the Tribal Historic Preservation program. The arbor will be sized 20’ x 28’ with a cement floor and steel roofing. The arbor will be used for picnics and to host families using the commercial playground.

The boat docks will be purchased from ABC Boat Docks LLL located in Bismarck, ND. The Docks will be comprised of aluminum framing with composite decking so that there will be minimal maintenance requirements. They will be strategically located on four (4) areas surrounding Belcourt Lake.

The final phase will include erecting fencing around the picnic arbor and restroom area for security and boundary purposes. The Natural Resources Department will use a skidsteer with post hole digger to set the posts in place for both the fencing and picnic arbor. The Park maintenance crew will provide the labor.

The TMBCI Tribal Government fully supports the Natural Resources Department’s efforts to maintain and enhance the Park which is guided by a comprehensive two-year strategic work plan. The current plan for 2018-2020 was approved by the tribal government in January 2018. The Plan was developed by the Natural Resources staff working in partnership with tribal government, the Bureau of Indian Affairs Office, and several stakeholder organizations including EPA, BIA/Tribal Forestry, and the Fish & Wildlife Office.

Timeline:	Site and Ground Work	Month 1
	Purchase of Boat Docks.....	Months 1
	Installation of Boat Docks.....	Months 3
	Construction of Picnic Arbor.....	Month 3
	Construction of Rest Rooms.....	Months 3-6
	Public promotion with media.....	Ongoing

Major benefits of the proposed Belcourt Lake Rejuvenation project include:

1. Attract more local and off-reservation visitors to the Belcourt Lake Park.
2. Provide fishing and recreational opportunities for the handicapped.
3. Provide accessibility to the lake waterways.
4. Will enhance Tribal Tourism Plan.
5. Provide additional safety to patrons using the lakes for fishing.

Is this project part of a Comprehensive Conservation Plan? x Yes No

If yes, provide a copy with the application.

Note: Projects involving buildings and infrastructure will only be considered if part of a Comprehensive Conservation Plan. Please refer to the “Definitions” section at the back of the form for more details.

Management of Project – Provide a description of how you will manage and oversee the project to ensure it is carried out on schedule and in a manner that best ensures its objectives will be met.

Include a brief background and work experience for those managing the project.

The TMBCI Natural Resources Department is tasked with working to integrate and sustain interdependent values of a healthy environment and is a livable community for the tribe. The Department’s integrated resources management strategy shares stewardship responsibility with local, regional, and national partners to manage the Tribe’s multiple resource interests.

The Natural Resources Department will manage and maintain the Boat Docks, Rest Rooms, and Picnic Arbor once purchased and erected. The Department will also keep the park groomed in the summer and clear pathways and entryway in the winter.

Evaluation – Describe your plan to document progress and results.

Please be specific on the methods you will utilize to measure success. Note that regular reporting, final evaluation and expenditure reports will be required for every grant awarded.

The tribal Natural Resources Director compiles monthly progress reports and presents them to the tribal Natural Resources Board of Directors on behalf of the Turtle Mountain Chippewa Tribal Government. Major performance measures will include timely completion of construction schedule, quality of construction, partnership leveraging, and numbers of Belcourt Lake Park visitors each year.

Financial Information

Project Budget – Use the table below to provide an itemized list of project expenses and describe the matching funds being utilized for this project.

Indicate if the matching funds are in the form of cash, indirect costs or in-kind services. The budget should identify all other committed funding sources and the amount of funding from each source. **A minimum of 25% match funding is required.** An application will be scored higher the greater the amount of match funding provided. (See Scoring Form.)

Certain values have been identified for in-kind services as detailed under “Budget Information” at the back of this form. Refer to that section and utilize these values in identifying your matching funds.

NOTE: No indirect costs will be funded. Supporting documentation for project expenses, including bids, must be included or application will be considered incomplete.

Project Expense	OHF Request	Applicant's Match Share (Cash)	Applicant's Match Share (In-Kind)	Applicant's Match Share (Indirect)	Other Project Sponsor's Share	Total Each Project Expense
Rest Room	\$ 25,000	\$	\$	\$	\$	\$ 25,000
Boat Docks	\$ 19,567	\$	\$	\$	\$	\$ 19,567
Picnic Arbor	\$ 4,000	\$	\$	\$	\$	\$ 4,000
Site Work	\$	\$	\$ 15,000	\$	\$	\$ 15,000
Fencing	\$	\$ 5,000	\$	\$	\$	\$ 5,000
	\$	\$	\$	\$	\$	\$
Total Costs	\$ 48,567	\$ 5,000	\$ 15,000	\$	\$	\$ 68,567

Note: Costs for seeding, fencing, pipelines, wells, and cover crops cannot exceed NRCS Field Office Tech Guide without justification. Projects involving perimeter fencing must follow NRCS eligibility standards.

Budget Narrative – Use the space below to provide additional detail regarding project expenses.

Rest Room:	Ron Parisien – Labor	\$8,000	
	Monroe Builders – Construction Materials	\$11,767	
	Jerry’s Septic Servicel – installation of self-contained septic system and cement floor	\$4,000	
	Ferguson – Stainless Steel Toilets x (2)	1,233 =	<u>\$25,000</u>
Boat Docks:	ABC Boat Dock Assemblies – Four Docks w/installation hardware		<u>\$19,567</u>
Picnic Arbor:	Cement Floor	\$1,800	
	Construction Materials	<u>\$2,200 =</u>	<u>\$4,000</u>

Site Work (Pre-development): Shoreline Restoration	\$5,000
Site Development – Leveling and Fill	\$5,000
Landscaping	<u>\$ 5,000 = \$15,000</u>
Fencing: for perimeter of Belcourt Lake Picnic Area and Restrooms	<u>\$5,000</u>

Sustainability – Indicate how the project will be funded or sustained in future years.

Include information on the sustainability of this project after OHF funds have been expended and whether the sustainability will be in the form of ongoing management or additional funding from a different source.

Natural Resources Office will continually seek any funding opportunities afforded the tribe via federal, state, foundation, and private funding. This will involve having pro-active working relationships with a multitude of agencies and organizations – locally, statewide, and nationally. The tribe is in the process of preparing a portfolio to complement its Work Plan and will be distributed to all potential funding agencies.

Recent Leveraging:

- Conservation Law Enforcement Officer (CLEO) – to hire an Officer who will serve to enforce Fish and Wildlife codes and protect Natural Resources habitat areas on the reservation. The first year grant is funded for \$48,000 and is renewable in five year increments.
- Sky Chief Park Restrooms – constructed three (3) Restrooms at Sky Chief Park which was largely funded by the ND Outdoor Heritage fund in the amount of \$56,250 with tribal contributions of approximately \$20,000.
- Sky Chief Park Fishing Piers – funded three (3) handicapped accessible fishing docks that were placed at Wheaton, Jarvis and Gordon lakes. Funded by ND Outdoor Heritage fund for \$74,000 with tribal match of \$25,000.
- AmeriCorps Program – to hire young adults between ages 18-24 to assist in Sky Chief Park development and operation. First year funding level at \$75,000
- Portable Saw Mill Equipment and facility– to purchase portable saw mill equipment that will be used to make park structures such as cabins, picnic tables, signage, etc. A 32’ x 60’ foot metal building is currently being constructed to house the portable wood mill operation. Thus far, \$123,050 has been committed to the project with tribal and BIA funds.
- Tribal Senior Program – to hire seniors ages 55 and over to assist with park maintenance including mowing grass, litter disposal, shoreline brushing, etc. Funded by BIA at \$80,000.

- Tribal Youth Program – to hire youth ages 14-18 to assist to work alongside seniors which is funded by BIA at \$65,000.

Partial Funding – Indicate how the project will be affected if less funding is available than that requested.

The TMBCI Tribal Government has been advocating for funds to compliment the development of Belcourt Lake Park. The Park is one of the tribe’s largest natural resources land areas and was highlighted as a top priority for financial and governmental support. It is a beautiful habitat that has nourished the TM Chippewa for generations and provided a wealth of recreational activities and programming.

It is essential that the tribal government afford Native youth every opportunity to participate in Natural Resource programming activities to assure long term sustainability. Tribal members do not have to pay park entrance fees and almost all events are free to the tribal public.

Partnership Recognition - If you are a successful recipient of Outdoor Heritage Fund dollars, how would you recognize the Outdoor Heritage Fund partnership? * *There must be signage at the location of the project acknowledging OHF funding when appropriate.*

The Tribal Natural Resources Department has access to all local media such as the Turtle Mountain Times & Turtle Mountain Star newspapers, tribal radio KEYA-FM radio, and tribal newsletter The Intent. The tribal government encourages the promotion of community driven projects that are beneficial to the tribe at large. The project will take advantage of this opportunity and will assure that the ND Outdoor Heritage fund will receive recognition and promotional coverage within these media streams.

Awarding of Grants - Review the appropriate sample contract for your organization on the website at <http://www.nd.gov/ndic/outdoor-infopage.htm>.

Can you meet all the provisions of the sample contract? Yes

If there are provisions in that contract that your organization is unable to meet, please indicate below what those provisions would be:

ABOUT OHF:

The purpose of the North Dakota Outdoor Heritage Fund is to provide funding to state agencies, tribal governments, political subdivisions, and nonprofit organizations, with higher priority given to projects that enhance **conservation** practices in this state by:

Directive A. Providing access to private and public lands for sportsmen, including projects that create fish and wildlife habitat and provide access for sportsmen;

Directive B. Improving, maintaining and restoring water quality, soil conditions, plant diversity, animal systems and by supporting other practices of stewardship to enhance farming and ranching;

Directive C. Developing, enhancing, conserving and restoring wildlife and fish habitat on private and public lands; and

Directive D. Conserving natural areas and creating other areas for recreation through the establishment and development of parks and other recreation areas.

EXEMPTIONS

Outdoor Heritage Fund grants may not be used to finance the following:

- Litigation;
- Lobbying activities;
- Any activity that would interfere, disrupt, or prevent activities associated with surface coal mining operations; sand, gravel, or scoria extraction activities; oil and gas operations; or other energy facility or infrastructure development;
- The acquisition of land or to encumber any land for a term longer than twenty years; or
- Projects outside this state or projects that are beyond the scope of defined activities that fulfill the purposes of Chapter 54-17.8 of the North Dakota Century Code.

OHF funds may not be used, except after a finding of exceptional circumstances by the Industrial Commission, to finance:

- A completed project or project commenced before the grant application is submitted;
- A feasibility or research study;
- Maintenance costs;
- A paving project for a road or parking lot;
- A swimming pool or aquatic park;
- Personal property that is not affixed to the land;
- Playground equipment, except that grant funds may be provided for up to 25% of the cost of the equipment not exceeding \$10,000 per project and all playground equipment grants may not exceed 5% of the total grants per year (see Definitions/Clarifications for how this will be calculated);
- Staffing or outside consultants except for costs for staffing or an outside consultant to design and implement an approved project based on the documented need of the applicant and the expenditures may not exceed 5% of the grant to a grantee if the grant exceeds \$250,000 and expenditures may not exceed 10% of the grant to a grantee if the grant is \$250,000 or less (see Definitions/Clarifications for how this will be calculated);
- A building except for a building that is included as part of a comprehensive conservation plan for a new or expanded recreational project (see Definitions/Clarifications for definition of comprehensive conservation plan and new or expanded recreational project); or
- A project in which the applicant is not directly involved in the execution and completion of the project.

The goal of the Industrial Commission is that at a minimum 15% of the funding received for a biennium will be given priority for recreation projects that meet Directive D.

The following projects are not eligible for funding, unless there is a finding of exceptional circumstances by the Industrial Commission include:

- Construction or refurbishment of indoor/outdoor ice rinks,
- Construction or refurbishment of indoor/outdoor athletic courts and sports fields,
- Other substantially similar facilities.
- Infrastructure that is not part of a comprehensive conservation plan.
- Projects not meeting a minimum funding request of \$2,500.

Budget Information

In-kind services used to match the request for Outdoor Heritage Fund dollars shall be valued as follows:

- Labor costs \$15.00 an hour
- Land costs Average rent costs for the county as shown in the most recent publication of the USDA, National Agricultural Statistics Services, North Dakota Field Office
- Permanent Equipment Any equipment purchased must be listed separately with documentation showing actual cost. (For example: playground equipment)
- Equipment usage Actual documentation
- Seed & Seedlings Actual documentation
- Transportation Mileage at federal rate
- Supplies & materials Actual documentation

More categories will be added as we better understand the types of applications that will be submitted. We will use as our basis for these standards other State and Federal programs that have established rates. For example, the North Dakota Nonpoint Source Pollution Management Program has established rates. If your project includes work that has an established rate under another State Program, please use those rates and note your source.

Definitions/Clarifications:

Building - Defined as "A structure with a roof either with walls or without walls and is attached to the ground in a permanent nature."

Comprehensive Conservation Plan - Defined as "A detailed plan that has been formally adopted by the governing board which includes goals and objectives--both short and long term, must show how this building will enhance the overall conservation goals of the project and the protection or preservation of wildlife and fish habitat or natural areas." This does not need to be a complex multi-page document. It could be included as a part of the application or be an attachment.

New and Expanded Recreational Project means that the proposed building cannot be a replacement of a current building. The proposed building must also be related to either a new or expanded recreational project--either an expansion in land or an expansion of an existing building or in the opportunities for recreation at the project site.

Playground equipment calculation - Only the actual costs of the playground equipment (a bid or invoice showing the amount of the equipment costs must be provided) - cannot include freight or installation or surface materials or removal of old equipment, etc.

Staffing/Outside Consultants Costs - If you are requesting OHF funding for staffing or for an outside consultant, you must provide information in your application on the need for OHF funding to cover these costs. For example, if you are an entity that has engineering staff you must explain why you don't have sufficient staff to do the work or if specific expertise is needed or whatever the reason is for your entity to retain an outside consultant. If it is a request for reimbursement for staff time then a written explanation is required in the application of why OHF funding is needed to pay for the costs of that staff member(s)' time. **The budget form must reflect on a separate line item the specific amount that is being requested for staffing and/or the hiring of an outside consultant.** This separate line item

will then be used to make the calculation of 5% or 10% as outlined in the law. Note that the calculation will be made on the grant less the costs for the consultant or staff.

Scoring of Grants

Oral Presentation. Please note that you will be given an opportunity to make a ten-minute Oral Presentation at a meeting of the Outdoor Heritage Fund Advisory Board. These presentations are strongly encouraged.

Open Record. Please note that your application and any attachments will be open records as defined by law and will be posted on the Industrial Commission/Outdoor Heritage Fund website.

All applications will be scored by the Outdoor Heritage Fund Advisory Board after your ten-minute oral presentation. The ranking form that will be used by the Board is available on the website at <http://www.nd.gov/ndic/outdoor-infopage.htm> .

Awarding of Grants

All decisions on requests will be reported to applicants no later than 30 days after Industrial Commission consideration. The Commission can set a limit on duration of an offer on each application or if there isn't a specific date indicated in the application for implementation of the project, then the applicant has until the next Outdoor Heritage Fund Advisory Board regular meeting to sign the contract and get the project underway or the commitment for funding will be terminated and the applicant may resubmit for funding. Applicants whose proposals have been approved will receive a contract outlining the terms and conditions of the grant.

Responsibility of Recipient

The recipient of any grant from the Industrial Commission must use the funds awarded for the specific purpose described in the grant application and in accordance with the contract. The recipient cannot use any of the funds for the purposes stated under Exemptions on the first page of this application.

If you have any questions about the application or have trouble submitting the application, please contact Andrea Pfennig at 701-328-3786 or apfennig@nd.gov.

Dura-Ware® 2131 Series Waterless Toilet Stool - ADA Compliant

2131-ADA-3

Fixture May Show Some Available Options

Please visit www.acorneng.com for most current specifications.

Waterless Toilet Stool - ADA Compliant

These toilets are recommended for comfort stations in wilderness areas, parks, camps, farms and similar locations where sewer systems are not available. Unit is designed for installation over vented pits. Design is vandal-resistant and permits easy replacement of similar existing units due to common floor opening. Waterless Toilet conforms to ADA, ANSI and UFAS requirements for accessibility and meets or exceeds structural requirements CSA B45.4-08. Compliance is subject to the interpretation and requirements of the local code authority.

Waterless Toilet riser is fabricated from 18 gage, type 304 stainless steel with all welded construction. Exposed surfaces are polished to a satin finish. Riser includes a pre-drilled flange at floor for mounting.

Integral Toilet seat is 14 gage, type 304 stainless steel and includes punching for optional plastic hinged seat.

GUIDE SPECIFICATION

Provide and install Acorn Vandal-Resistant Waterless Toilet Riser (specify model number and options). Riser shall be fabricated of 18 gage, type 304 stainless steel with exposed surfaces polished to a satin finish. Integral seat to be 14 gage, type 304 stainless steel. All joints to be welded construction. Provide pre-drilled flange for mounting to floor. Unit to conform to ADA accessibility requirements. Installer to provide mounting hardware to floor and floor anchors. Unit to be installed per manufacturer's recommendations.
