## Organization Info

Our town has both a city board and also a park board. Our boards work closely together to help provide a clean environment, reason to live here, and reason to move here. We take pride in our community by having fund-raisers, monthly meetings, and listening to the town people and their wants and needs. Our town has a lot of small businesses which is getting harder to come by in small towns.

Back in August we had a presentation of a check for \$5000.00 from Bayer chemical. At that time we had a free burger and brats supper for the community to show our intentions for new playground Equipment. To our surprise we had about 200 people show up to support our venture. I saw the spark in the kids eyes when looking at what the future has install for the park. It was amazing.

Thank you

Terry Biby

## Summary

Our little town of about 200 people is a very well kept clean town, but our park equipment has been condemned by the inspector. During the year 2014 we hope to remove all our current equipment which does not meet code and replace it with new equipment from Miricle. The company doing the project will be BCB Builders out of Dickenson NO. Bruce is the owner of BCB and is CPSI Licensed which is certified Playground Safety Inspector. He is also a certified installer. I have enclosed a sketch of what the finished result will look like. The total cost of the project will be \$109,329.

Sombody once told me I was foolish for spending that kind of money in a park that our kids don't play in, but I only see it as a park that they currently can't play in.

I also talked to the mayor in the small town of St. Thomas ND which recently did the same project. He used the same company and same installers and reported to me that it was a home-run in their little town. It brought their town back to life. I personally took this project on over a year ago and I am going to see it through till it is done.

Thank you  
A. Bib
