Do you anticipate needing to request a grant extension If yes, please explain
 // Yes /X/ No

Work Completed during Period Covered by Report:
 (This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

Elmwood is a 20-acre historic site within a meander cutoff along the Park River within Grafton, North Dakota. Goals of the restoration project were to achieve increased diversity in tree, shrub, grass, and forb communities, nature trail establishment, and development of brochures with information to educate visitors on established species and riparian areas.

Project implementation began spring 2018 and is currently wrapping up. This is the second and final request for the Elmwood riparian restoration project. We are requesting 60% reimbursement for fabric squares and tree tubes used to control weeds and protect against outside influences. Protection and weed control are essential for trees in early growth stages. Please refer to Table 1 for a cost-share breakdown.

Contractor	Invoice
Walsh County Three Rivers Soil Conservation District	\$ 225.00
TOTAL	\$ 225.00
60% - This Request	\$ 135.00
40% - In-Kind Match	\$ 90.00

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

Signature of Responsible Official

The project reports shall be provided to the Commission in both electronic and hard-copy formats with permission for unrestricted distribution. The electronic versions shall be in a suitable format for posting on the Outdoor Heritage Fund/Commission website.
