Work Completed during Period Covered by Report:

(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

The Stump Lake Park Bank Stabilization Project has seen significant progress this fall and winter. The weather cooperated this fall so that all of the dead trees in the water and along the shore have been removed. The contractor has stockpiled rock and fill material and is ready to put it in place next summer. No material can be placed in the water until June 1, 2016 because the fish are spawning. The expected completion date is August, 2016.

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.
