Do you anticipate needing to request a grant extension? /_/ Yes /X_/ No

If yes, please explain:

*As appropriate please provide copies of receipts for purchases.

Work Completed during Period Covered by Report:

(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

Engineering design plans were completed for the Harmon Lake Wetland Project located in Morton County. The NDNRT paid \$4,623.00 for completion of this engineering design (see attached documentation). This expense is split 70% OHF = \$3,236.10 and 30% NDNRT = \$1,386.90. A Wetland Creation and Enhancement Agreement between NDNRT and the Morton County Water Resources Water Board was signed to allow this project to be done (Attached). A Construction Agreement was signed by NDNRT with Guthmiller and Son Dirtworks (Attached) to complete the project. Because of excessively wet conditions the work has not been completed this fall. The plan is to complete the project in the spring of 2020.

Plans for the Myron Lick Wetland Restoration site in McLean County are moving forward. The engineering design was submitted to the North Dakota State Water Commission for permitting. We are awaiting approval. Construction is planned for summer, 2020.

Reconnaissance of four projects sites in Sioux County was performed during the summer.

Due to wet conditions this fall construction at several project sites was not able to be done this fall. All of these sites should be constructed in 2020.

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:
