Total			\$192,466.39			

Do you anticipate needing to request a grant extension? ☐ / ☐ Yes ☒ / ☐ No

If yes, please explain:

*As appropriate please provide copies of receipts for purchases.

Work Completed during Period Covered by Report:

(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

Ranch A has installed two new wells, an extensive pipeline and water center system and miles of cross fence needed to provide the volume of water needed to implement a new intensive grazing system for their buffalo herd. This is an approximately 3,500 acre grazing system, which these developments are the first-step in transitioning this ranch to a Holistic Management System. The goal of this grazing rotation and management change is to improve infiltration rates, plant diversity, carbon sequestration, and soil health. This ranch is located in a rough, badlands type landscape in southwestern Bowman County where fencing, water developments and frequent rotating of livestock is not an easy task. But this ranch family is committed to improving and this management change. They are carefully monitoring the vegetation, soil, livestock, riparian areas, and wildlife to ensure their management is benefiting all.

None of this land is currently enrolled in the PLOTS program.

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund.
