Work Completed during Period Covered by Report:

(This information will be posted on the Outdoor Heritage Fund/Industrial Commission website)

Pheasants Forever has worked throughout this latest reporting period to coordinate with our partner in this grant to identify additional growers that have an interested in working with both the partner and PF. Identifying growers that are interested/willing to work with our partner has been difficult. Due to this difficulty, we have been unable to identify additional interested participants at this time.

We currently have one grower with a signed contract that planned to plant 40 acres of perennial cover. However, due to time constraints this growers was unable to complete the 40 acre perennial planting that was scheduled.

Pheasants Forever plans to request a budget modification that will allow us to deliver the acre goals in this grant, without the continued support of the partner.

Photos of work completed are welcome (If appropriate, please submit photos of key elements of the project completed or in progress during reporting period) Do not exceed five photos per project report.
