Completion Date – November 30, 2021	Final Report: November 30, 2021

OBJECTIVE/STATEMENT OF WORK:

Provide financial assistance and technical assistance for establishing conservation cover crops in Cass County. The goal is to implement 2,500 acres of cover crop annually for 2020 & 2021.

STATUS:

The contract has been fully executed.

December 2020

In total 343 acres were seeded. Interest in the project was significantly less this year due to wet spring planting and lack of small grains on the landscape. We did not offer assistance to those seeding covers for Prevented Plant acres. Thousands of acres were seeded without program assistance on Prevented Plant acres.
