Interim Report

Interim Report

Work Accomplished*:

The Bakken II program has been highly successful in providing opportunities for landowners during an especially difficult dry period, and several landowners have stated how grateful they are for the Outdoor Heritage Fund and the opportunities it provides. All funds in grazing systems were committed in the first four months of the program, as well as cover crops. There were few applications for native or tame grass seed. Signed agreements with the US Forest Service and Terracon to begin work 2022

Certification

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:

- (A) Make any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights; or
- (B) Assume any liabilities with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.

Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the Industrial Commission of North Dakota. The views and opinions of authors expressed herein do not necessarily state or reflect those of the Industrial Commission of North Dakota.

Do you agree?*: Yes

Tasks Report

Tasks

Task	Start Date	Completion		Comments
		Date	Percent Complete	
Promotion to landowners	01/01/2021	12/30/2022	100.0%	Interest in the program is at its peak and although funding is still available in grass seeding, these dollars will be utilized quickly if weather conditions allow. Interest in grazing systems continues to exceed dollars available.
Partner correspondence	09/01/2020	12/30/2022	90.0%	Partnerships have expanded to an additional two Soil Conservation Districts with more bringing landowners into our program as funds become available.
Energy site restoration	01/01/2021	12/29/2023	10.0%	Planning in 2021 will lead to projects kicking off in 2022
Contractor coordination	01/01/2021	12/29/2023	50.0%	Soil monitoring has been completed in 2021 as well as archaeological reviews for several grazing system projects.

Description of Tasks

Please Describe Tasks:

1. Contractors will be needed throughout the life of the project to complete soil testing, archaeological reviews, and earth moving activities. 2. Complete site assessments in coordination with NDDMR and landowners. 3. Constant communications with partners on status of activities, outreach to SCD's, and report writing to OHF. 4. Landowner workshops, shop talks, postcard mailings through SCD's, magazine articles, and convention attendance to promote program and the Outdoor Heritage Fund.

Deliverables Report

Deliverables

Deliverable	Quantity	Unit of Measurement, if applicable	Status
Cover Crop	1250	Acres	1,867.19 acres implemented during this reporting period
Energy Site Reclamation	100	Acres	0 acres. Work will begin in 2022
Grazing Systems	18000	Acres	10,743 acres have been improved during this reporting period
Native Grass	1500	Acres	0
Tame Grass	1900	Acres	0
