OBJECTIVE/STATEMENT OF WORK:

A phase II project of assisting with the installation of between five to ten grazing systems that will continue to improve, maintain and restore water quality, soil conditions, plant diversity, and animal systems to approximately 6,000 acres.

STATUS:

The contract has been fully executed.

January 2022

Since this grant was approved, Pheasants Forever has created an application and program contract for use with cooperating landowners. We have worked closely with our partners at the USFWS to share this opportunity with interested ranchers in the project area. To date we have six signed contracts and one application. The six signed contracts account for 8,795.20 acres. Work on signed contracts is ongoing.
