## Interim Report

### Interim Report

#### Work Accomplished\*:

Due to the drought of 2020/2021 the Grazing Resiliency in the Bakken program was very popular and complimented the State Water Commission program very well for water developments for landowners. The Outdoor Heritage Fund played a critical role in assisting landowners during this difficult time and many landowners signed up for the program as soon as it was available. All funds for grazing systems were committed to landowners in the first six months of the program.

#### Certification

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:

(A) Make any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that

the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights; or  
(B) Assume any liabilities with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.

Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the Industrial Commission of North Dakota. The views and opinions of authors expressed herein do not necessarily state or reflect those of the Industrial Commission of North Dakota.

Do you agree?\*: Yes
