Interim Report				

### Interim Report

#### Work Accomplished\*:

The Grazing Resiliency in the Bakken Program continued to be very popular with landowners in western North Dakota. Since the funds were committed to landowners through agreements in the first six months of the Program, the ND Natural Resources Trust worked with landowners and our partners on implementing the agreements. Aside from some challenges with obtaining fencing and water materials, work proceeded steadily in 2022. Thank you to the Outdoor Heritage Fund for their support to ranchers.

#### Certification

This report was prepared pursuant to an agreement with the Industrial Commission of North Dakota, which partially funded the project through the Outdoor Heritage Fund. Project participants, its subcontractors, and the Industrial Commission of North Dakota, or any person acting on its behalf, do not:

(A) Make any warranty or representation, express or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that

the use of any information, apparatus, method, or process disclosed in this report may not infringe privately-owned rights; or  
(B) Assume any liabilities with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.

Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the Industrial Commission of North Dakota. The views and opinions of authors expressed herein do not necessarily state or reflect those of the Industrial Commission of North Dakota.

Do you agree?\*: Yes
