

Outdoor Heritage Fund Grant Application

Instructions

After completing the form, applications and supporting documentation may be submitted by e-mail to ndicgrants@nd.gov. It is preferred that only electronic copies are submitted.

You are not limited to the spacing provided, except in those instances where there is a limit on the number of words. If you need additional space, please indicate that on the application form, answer the question on a separate page, and include with your submission.

The application and all attachments must be received by the application deadline. You may submit your application at any time prior to the application deadline. **Applicants are strongly encouraged to submit applications prior to the deadline for staff review in order ensure that proposals will be complete when submitted on deadline date.** Incomplete applications may not be considered for funding.

Please review the back of this form to determine project eligibility, definitions, budget criteria, and statutory requirements.

Project Name - MonDak Pheasants Forever 619 NWND 2024-2026 Habitat Project

Name of Organization - Pheasants Forever, Inc.

Federal Tax ID# - Pheasants Forever 41-1429149

Contact Person/Title - Renee Tomala, Senior Field Representative

Address – PO Box 7403

City - Bismarck

State - ND

Zip Code - 58507

E-mail Address - rtomala@pheasantsforever.org

Web Site Address (If applicable)

Phone - 701-220-8769

List names of co-applicants if this is a joint proposal

Kent Reiersen, Habitat Committee

MonDak Chapter #619 Pheasants Forever – Williston, ND

Email - lawhuntr@gmail.com

Phone - 701-770-1487

MAJOR Directive:

Choose only one response

Directive A. Providing access to private and public lands for sportsmen, including projects that create fish and wildlife habitat and provide access for sportsmen;

Directive B. Improving, maintaining and restoring water quality, soil conditions, plant diversity, animal systems and by supporting other practices of stewardship to enhance farming and ranching;

Directive C. Developing, enhancing, conserving and restoring wildlife and fish habitat on private and public lands; and

Directive D. Conserving natural areas and creating other areas for recreation through the establishment and development of parks and other recreation areas.

Additional Directive:

Choose all that apply

Directive A.

Directive B.

Directive C.

Directive D.

Type of organization:

State Agency

Political Subdivision

Tribal Entity

Tax-exempt, nonprofit corporation.

Abstract/Executive Summary.

Summarize the project, including its objectives, expected results, duration, total project costs and participants. (no more than 500 words):

The Williston Pheasants Forever MonDak Chapter 619 (Chapter), North Dakota Pheasants Forever (PF) and ND Game and Fish Department (Department) are collaborating to increase new wildlife habitat development and hunting access in Williams and Divide counties. These counties are highly desirable hunting areas and are key areas for the Department's PLOTS program.

The goal for this partnership is to incentivize 2,500 acres of new grass plantings (funded by the Department) and an additional 2,500 acres of new CRP enrollments with hunting access. New grass plantings in these areas will provide pheasants with high-quality nesting and brood-rearing habitat in addition to providing the public with unrestricted walk-in hunting access through the PLOTS program. The PF incentive would be an additional up-front Payment to

the landowner of \$50/acre in addition to the \$60/acre grass establishment costs (funded by OHF and PF). Grass and forb seed mixes cost an estimated \$70 /acre (funded by Department). This is in addition to the current initial upfront incentive by the Department of \$30/acre and \$10/acre CRP access (PLOTS) and \$45/acre/year rental. CRP also has its rental payments on the CRP grounds funded by the USDA and ran by Farm Service Agency. Department PLOTS payments will be issued using state and/or Pittman-Robertson funding and zero OHF dollars. These Department funds will not count as OHF match but should be viewed as a contribution to the total value of the project by the Department.

The advantage for our Chapter is we can provide one-time incentives substantially reducing our administrative work for a volunteer board. We will not need to track and make annual payments as the Department rental payments and CRP payments will kick in to keep the acreage in PLOTS and New Grass/CRP for 8 —15 years. This will be a 3-year project starting 2024, at \$50,000 a year for our chapter contribution.

The Williston Chapter has worked on this project with the local NDGF Private Lands Biologist; the State NDGF West Region Supervisor for Private Lands; the Pheasants Forever Precision Ag personnel; local Soil Conservation Districts; as well as our Pheasants Forever state coordinator and Field Representative. We have also contacted the FSA and SCD personnel providing details for the project in Williams and Divide County. Pheasants Forever, Inc. is listed as the applicant because under the local Chapter charter we cannot enter a multiyear contract but the national Pheasants Forever can do so. The national PF also disburses the Chapter funds. The project, however, is a local Chapter project and will be led by the Williston Chapter 619 committee.

Project Cost/Percentage for the PLOTS and New Grass/CRP is estimated as follows:

OHF	PF	Grand Total
\$250,000	\$150,000	\$400,000
62.5%	37.5%	

Overall costs of the project

OHF	PF	NDGF	Grand Total
\$250,000	\$150,000	\$1,762,500	\$2,162,500
11%	7%	82%	

Note: The NDGF costs will not be used for any of the match but is included to demonstrate the scope of the project by partnering with them. Without such a partnership our Chapter just does not have the funding or administrative ability to attempt such an extensive hunting access and habitat development project.

Project Duration:

Indicate the intended schedule for drawing down OHF funds.

2024 – 2026. Perfect draw down would be 1/3 each year but it is expected it will take a year to get traction, so we estimate draw down to be 2024 – 20%, 2025 – 40%, 2026 – 40%.

Amount of Grant request: \$250,000

Total Project Costs: \$400,000

Note: in-kind and indirect costs can be used for matching funds.

Amount of Matching Funds: \$150,000 cash – We also expect there to be additional Chapter costs to sponsor landowner informational meetings in Williams and Divide County.

A minimum of 25% Match Funding is required. Indicate if the matching funds will be in-kind, indirect or cash. Please provide verification that these matching funds are available for your project. Note that effective as of July 1, 2015 no State General Fund dollars can be used for a match unless funding was legislatively appropriated for that purpose.

Amount of Match	Funding Source	Type of Match (Cash, In-kind or Indirect)
\$150,000	Pheasants Forever Chapter Fund Raising activities	Cash

Certifications

I certify that this application has been made with the support of the governing body and chief executive of my organization.

I certify that if awarded grant funding none of the funding will be used for any of the exemptions noted in the back of this application.

Narrative

Organization Information – Briefly summarize your organization’s history, mission, current programs and activities.

Include an overview of your organizational structure, including board, staff and volunteer involvement. (no more than 300 words)

Pheasants Forever was formed in 1982. Pheasants Forever’s mission is to conserve pheasants, quail, and other wildlife through habitat improvements, public access, education, and conservation advocacy. Nationally there are 130,000 members with a diverse staff – including more than 175 biologists and more than 750 Local chapters and many nongovernmental, governmental, nonprofit, and corporate partners.

Chapters of Pheasants Forever retain 100 percent decision-making control over their locally raised funds. This allows chapter volunteers to develop wildlife habitat projects and conduct youth conservation events in their communities, while belonging to a national organization with a voice regarding state and federal conservation policy.

The Pheasants Forever MonDak Chapter 619 in Williston has an active committee of 17 volunteers and actively supports the Coyote Clay Target league, the largest high school clay target league in the nation. We also sponsor a wildlife friendly seed giveaway program each spring, a fall fund raising banquet and a mid-winter fundraising event. The Chapter seeks to carry out the national mission by creating habitat and hunter access with this project in Williams and Divide County.

Purpose of Grant – Describe the proposed project identifying how the project will meet the specific directive(s) of the Outdoor Heritage Fund Program

Identify project goals, strategies and benefits and your timetable for implementation. Include information about the need for the project and whether there is urgency for funding. Indicate if this is a new project or if it is replacing funding that is no longer available to your organization. Identify any innovative features or processes of your project. Note: if your proposal provides funding to an individual, the names of the recipients must be reported to the Industrial Commission/Outdoor Heritage Fund. These names will be disclosed upon request.

*For tree/shrub/grass plantings: provide a planting plan describing the site design, planting methods, number of trees/shrubs by species and stock size, grass species and future maintenance. A statement certifying that the applicant will adhere to USDA-NRCS tree/shrub/grass planting specifications along with the name of the governmental entity designing the planting may be substituted for a planting plan. **NA***

*For projects including Section 319 funding: provide in detail the specific best management practices that will be implemented and the specific projects for which you are seeking funding. **NA***

*For projects including fencing: A minimum cost share of 40% by the recipient is preferred. Include detailed information on the type of fencing to be installed, whether funding is requested for boundary fencing, new or replacement of existing fencing, and/or cross fencing. **NA***

The PF MonDak 619 Chapter desired to engage in a habitat development project in northwest North Dakota where most of our members live and hunt. This is a new project for the Chapter. While there are many habitat project proposals, access is often an overlooked “byproduct”. Our chapter desired to ensure public hunting access to the habitat projects our members were supporting.

The Chapter wanted to implement a habitat project but recognized the limited capacity of our small group of volunteers with limited resources to create a meaningful amount of habitat while also increasing hunting access. This project is based upon the long-standing programs developed by the NDGF to increase habitat and hunting access. By partnering with the NDGF, FSA and SCDs in this area we can enhance these existing programs and materially increase the attractiveness of the programs to producers.

Obviously, landowners and producers rely upon income from their properties. Habitat creation and conservation is expensive, and landowners consider financial inputs, cost share, goals, partners, etc when making decisions regarding land management. There are political restrictions upon the level of funding that can be provided by governmental organizations whose mission is to enhance habitat and access. Our Chapter hopes to increase the attractiveness of these existing programs by providing a non-governmental incentive that will also benefit wildlife and public hunting access.

There is a great need for public hunting access to good hunting areas. Lands open to hunting have decreased with the evolving electronic posting, loss of CRP and private purchases of land for hunting purposes. It is also important that landowners and producers are appropriately compensated for developing wildlife habitat and allowing access. While there are still many landowners who will allow access to their lands, those of us who are using it for recreational purposes should be shouldering some of that cost.

While the CRP and New Grass lands will have cropping and use restrictions, much of it will not cover entire quarters or fields. Many of the lands which may be open to PLOTS may still have the most desirable crop lands available for cropping depending upon the mutual determination of the landowner and Biologist. Hence a 160-acre field may have an existing 20 acre wetland and its location makes farming it a little more difficult along an edge or two. Under the NDGF program, a portion, say 40 acres along an edge, would be put into New Grass with the NDGF providing a \$15/acre initial incentive, grass establishment costs of \$60/acre and seed costs of \$70/acre with annual rental of \$45 for the 40 acres

to be put into new grass habitat. So, for a 10-year agreement the rental comes to \$46.50 less for a 15 year agreement. The Chapter incentive of \$50/acre up front will bring the annual rental to \$51.50/acre.

The PLOTS program will provide an additional \$1/acre for the 120-acre balance of the field for public access to the entire 160 acres. This leaves 100 acres of the field still available to be cropped by the producer, creates 40 acres of new grass habitat, 20 acres of existing wetland and public hunting access to the entire 160 acres. Hunters get access, the landowner gets compensated for allowing access and putting lands into grass and wildlife benefits from that new habitat.

In Williams and Divide County the reported non irrigated crop rental rate (often under reported) is a little greater than \$35/acre on an annual rental rate. This does not account for tying up the contract acreage for 10-15 years. It is hoped that this incentive will result in more participation than has been obtained in the past.

If it is successful, the Chapter may consider renewing the project and adjusting rates as needed to make such a program successful on a continuing basis.

Is this project part of a Comprehensive Conservation Plan? Yes No
If yes, provide a copy with the application.

Note: Projects involving buildings and infrastructure will only be considered if part of a Comprehensive Conservation Plan. Please refer to the "Definitions" section at the back of the form for more details.

Management of Project – Provide a description of how you will manage and oversee the project to ensure it is carried out on schedule and in a manner that best ensures its objectives will be met.

Include a brief background and work experience for those managing the project.

The primary contact and development of the target properties will be made by the local NDGF Private Lands Biologist in District 6 (NWND District located in Williston). When it appears that an agreement will be reached with the producer/landowner, the Biologist will then contact our MonDak Chapter Habitat Committee Chair to confirm our support for that Habitat/Plots project. We will then run the project area by the Pheasants Forever Precision Ag & Conservation Specialist for NW ND, to determine if there are additional lands in the desired contract area that may benefit from being included in the New Grass habitat area based upon the economics of the crop lands. When the contract is signed with the landowner, our Chapter will have a check for the PF incentive made out and delivered to the landowner. The funds will be chapter funds but go through the national PF organization which will be able to carry the expense until the OHF reimbursement is made.

The local NDGF Private Lands Biologist, Erica Sevigny, is a full-time trained professional in District 6 located in Williston whose job it is to initiate and work with Landowners on the PLOTS, CRP and New Grass Programs as well as other programs for the NDGF.

The Pheasants Forever Precision Ag & Conservation Specialist, Warren Swenson, is a full time Pheasants Forever employee and trained to provide advice and analyze crop lands for those areas where the producer may not be getting an economic return from certain acres in a crop field which may be placed in wildlife habitat resulting in better economics for the producer and enhancing the suitability of the property for wildlife.

Our local Pheasants Forever Chapter Habitat committee are volunteers and would be involved in assisting set up landowner information meetings with the NDGF Biologist and the PF Precision Ag Specialist as well as make the payments for the incentive when the NDGF contract is entered into with the producer/landowner.

This partnership results in professional management of the project and reduces the administration of the project from the PF MonDak Chapter.

Evaluation – Describe your plan to document progress and results.

Please be specific on the methods you will utilize to measure success. Note that regular reporting, final evaluation and expenditure reports will be required for every grant awarded.

We will be able to evaluate the success of the project by the number of acres we are able to get enrolled compared to prior years enrollment to determine if the additional Pheasants Forever Chapter incentive payment is making a difference in getting additional new grass and CRP with public hunting access under the PLOTS program.

Financial Information

Project Budget – Use the table below to provide an itemized list of project expenses and describe the matching funds being utilized for this project.

Indicate if the matching funds are in the form of cash, indirect costs or in-kind services. The budget should identify all other committed funding sources and the amount of funding from each source. **A minimum of 25% match funding is required.** An application will be scored higher the greater the amount of match funding provided. (See Scoring Form.)

Certain values have been identified for in-kind services as detailed under “Budget Information” at the back of this form. Refer to that section and utilize these values in identifying your matching funds.

NOTE: No indirect costs will be funded. Supporting documentation for project expenses, including bids, must be included or application will be considered incomplete.

Project Expense	OHF Request	Applicant's Match Share (Cash)	Applicant's Match Share (In-Kind)	Applicant's Match Share (Indirect)	Other Project Sponsor's Share	Total Each Project Expense
Incentive payment	\$250,000	\$150,000	\$	\$	\$1,762,500	\$2,162,500
Total Costs	\$	\$	\$	\$	\$	\$

Note: Costs for seeding, fencing, pipelines, wells, and cover crops cannot exceed NRCS Field Office Tech Guide without justification. Projects involving perimeter fencing must follow NRCS eligibility standards.

Budget Narrative – Use the space below to provide additional detail regarding project expenses.

Only additional expected costs will be for sponsoring landowner information meetings with NDGF.

Sustainability – Indicate how the project will be funded or sustained in future years.

Include information on the sustainability of this project after OHF funds have been expended and whether the sustainability will be in the form of ongoing management or additional funding from a different source.

In the future, if the program is successful in growing the habitat and access acres and if OHF funds were not available, the Chapter would be able to still leverage its funds as incentives with the NDGF programs, but it would be fewer acres for which the incentive could be provided.

Partial Funding – Indicate how the project will be affected if less funding is available than that requested.

Acreage goals will be reduced but it is planned that the project would continue.

Partnership Recognition - If you are a successful recipient of Outdoor Heritage Fund dollars, how would you recognize the Outdoor Heritage Fund partnership? * There must be signage at the location of the project acknowledging OHF funding when appropriate.

We would provide manpower to put up OHF recognition signs with the NDGF PLOTS signs so OHF would be recognized along with our PF Chapter for providing the incentives to obtain the acreage.

Awarding of Grants - Review the appropriate sample contract for your organization on the website at <http://www.nd.gov/ndic/outdoor-infopage.htm>.

Can you meet all the provisions of the sample contract? **XX Yes** No

If there are provisions in that contract that your organization is unable to meet, please indicate below what those provisions would be:

It is questionable that any liability coverage for this project would be needed as it is only proving an incentive to the landowner and no additional work is being done by the Chapter.

ABOUT OHF:

The purpose of the North Dakota Outdoor Heritage Fund is to provide funding to state agencies, tribal governments, political subdivisions, and nonprofit organizations, with higher priority given to projects that enhance **conservation** practices in this state by:

Directive A. Providing access to private and public lands for sportsmen, including projects that create fish and wildlife habitat and provide access for sportsmen;

Directive B. Improving, maintaining and restoring water quality, soil conditions, plant diversity, animal systems and by supporting other practices of stewardship to enhance farming and ranching;

Directive C. Developing, enhancing, conserving and restoring wildlife and fish habitat on private and public lands; and

Directive D. Conserving natural areas and creating other areas for recreation through the establishment and development of parks and other recreation areas.

EXEMPTIONS

Outdoor Heritage Fund grants may not be used to finance the following:

- Litigation;
- Lobbying activities;
- Any activity that would interfere, disrupt, or prevent activities associated with surface coal mining operations; sand, gravel, or scoria extraction activities; oil and gas operations; or other energy facility or infrastructure development;
- The acquisition of land or to encumber any land for a term longer than twenty years; or
- Projects outside this state or projects that are beyond the scope of defined activities that fulfill the purposes of Chapter 54-17.8 of the North Dakota Century Code.

OHF funds may not be used, except after a finding of exceptional circumstances by the Industrial Commission, to finance:

- A completed project or project commenced before the grant application is submitted;
- A feasibility or research study;
- Maintenance costs;
- A paving project for a road or parking lot;
- A swimming pool or aquatic park;
- Personal property that is not affixed to the land;
- Playground equipment, except that grant funds may be provided for up to 25% of the cost of the equipment not exceeding \$10,000 per project and all playground equipment grants may not exceed 5% of the total grants per year (see Definitions/Clarifications for how this will be calculated);
- Staffing or outside consultants except for costs for staffing or an outside consultant to design and implement an approved project based on the documented need of the applicant and the expenditures may not exceed 5% of the grant to a grantee if the grant exceeds \$250,000 and expenditures may not exceed 10% of the grant to a grantee if the grant is \$250,000 or less (see Definitions/Clarifications for how this will be calculated);
- A building except for a building that is included as part of a comprehensive conservation plan for a new or expanded recreational project (see Definitions/Clarifications for definition of comprehensive conservation plan and new or expanded recreational project); or
- A project in which the applicant is not directly involved in the execution and completion of the project.

The goal of the Industrial Commission is that at a minimum 15% of the funding received for a biennium will be given priority for recreation projects that meet Directive D.

The following projects are not eligible for funding, unless there is a finding of exceptional circumstances by the Industrial Commission include:

- Construction or refurbishment of indoor/outdoor ice rinks,
- Construction or refurbishment of indoor/outdoor athletic courts and sports fields,
- Other substantially similar facilities.
- Infrastructure that is not part of a comprehensive conservation plan.
- Projects not meeting a minimum funding request of \$2,500.

Budget Information

In-kind services used to match the request for Outdoor Heritage Fund dollars shall be valued as follows:

- Labor costs \$15.00 an hour
- Land costs Average rent costs for the county as shown in the most recent publication of the USDA, National Agricultural Statistics Services, North Dakota Field Office
- Permanent Equipment Any equipment purchased must be listed separately with documentation showing actual cost. (For example: playground equipment)
- Equipment usage Actual documentation
- Seed & Seedlings Actual documentation
- Transportation Mileage at federal rate
- Supplies & materials Actual documentation

More categories will be added as we better understand the types of applications that will be submitted. We will use as our basis for these standards other State and Federal programs that have established rates. For example, the North Dakota Nonpoint Source Pollution Management Program has established rates. If your project includes work that has an established rate under another State Program, please use those rates and note your source.

Definitions/Clarifications:

Building - Defined as "A structure with a roof either with walls or without walls and is attached to the ground in a permanent nature."

Comprehensive Conservation Plan - Defined as "A detailed plan that has been formally adopted by the governing board which includes goals and objectives--both short and long term, must show how this building will enhance the overall conservation goals of the project and the protection or preservation of wildlife and fish habitat or natural areas." This does not need to be a complex multi-page document. It could be included as a part of the application or be an attachment.

New and Expanded Recreational Project means that the proposed building cannot be a replacement of a current building. The proposed building must also be related to either a new or expanded recreational project--either an expansion in land or an expansion of an existing building or in the opportunities for recreation at the project site.

Playground equipment calculation - Only the actual costs of the playground equipment (a bid or invoice showing the amount of the equipment costs must be provided) - cannot include freight or installation or surface materials or removal of old equipment, etc.

Staffing/Outside Consultants Costs - If you are requesting OHF funding for staffing or for an outside consultant, you must provide information in your application on the need for OHF funding to cover these costs. For example, if you are an entity that has engineering staff you must explain why you don't have sufficient staff to do the work or if specific expertise is needed or whatever the reason is for your entity to retain an outside consultant. If it is a request for reimbursement for staff time then a written explanation is required in the application of why OHF funding is needed to pay for the costs of that staff member(s)' time. **The budget form must reflect on a separate line item the specific amount that**

is being requested for staffing and/or the hiring of an outside consultant. This separate line item will then be used to make the calculation of 5% or 10% as outlined in the law. Note that the calculation will be made on the grant less the costs for the consultant or staff.

Maintenance – Activities that preserve or keep infrastructure in a given existing condition, including repairs. Repair means to restore to sound condition after damage, to renew or refresh; except repairs due to damage caused by Acts of God.

Scoring of Grants

Oral Presentation. Please note that you will be given an opportunity to make a ten-minute Oral Presentation at a meeting of the Outdoor Heritage Fund Advisory Board. These presentations are strongly encouraged.

Open Record. Please note that your application and any attachments will be open records as defined by law and will be posted on the Industrial Commission/Outdoor Heritage Fund website.

All applications will be scored by the Outdoor Heritage Fund Advisory Board after your ten-minute oral presentation. The ranking form that will be used by the Board is available on the website at <http://www.nd.gov/ndic/outdoor-infopage.htm> .

Awarding of Grants

All decisions on requests will be reported to applicants no later than 30 days after Industrial Commission consideration. The Commission can set a limit on duration of an offer on each application or if there isn't a specific date indicated in the application for implementation of the project, then the applicant has until the next Outdoor Heritage Fund Advisory Board regular meeting to sign the contract and get the project underway or the commitment for funding will be terminated and the applicant may resubmit for funding. Applicants whose proposals have been approved will receive a contract outlining the terms and conditions of the grant.

Responsibility of Recipient

The recipient of any grant from the Industrial Commission must use the funds awarded for the specific purpose described in the grant application and in accordance with the contract. The recipient cannot use any of the funds for the purposes stated under Exemptions on the first page of this application.

If you have any questions about the application, the Commission can be reached at 701-328-3722 or outdoorheritage@nd.gov.

Revised: November 4, 2019, April 12, 2023

To North Dakota Heritage Fund Advisory Board:

Please consider this as a letter of support for the Pheasants Forever Mondak Chapter 619 2024-2026 NWND Habitat and Access Project. This project would encourage landowners to consider the CRP and New Grass programs offered by the North Dakota Game and Fish Department. The proposed incentive would help offset our landowners' financial impact of creating wildlife habitat and allowing hunting access. The United Sportsmen's board, members, and outdoor enthusiasts alike agree that this has been needed in Williams and Divide Counties.

As sportsmen we understand that creating and maintaining habitat is an expensive prospect for landowners. An important component is access for the public. We certainly understand the hesitancy of some landowners to provide hunting access to their property. Hopefully this project would help overcome that hesitancy by sportsmen funds providing compensation for such access. This seems to be a win for our wildlife, landowners, and sportsmen. The United Sportsmen of Williston strongly supports the local Pheasants Forever Chapter 619 project. We hope the Outdoor Heritage Fund Board will recommend funding the Pheasants Forever Mondak Chapter 619 2024-2026 NWND Habitat and Access Project.

Sincerely,

Michael Wenstad

President United Sportsmen of Williston

Williams County Soil Conservation District
1106 West Second Street
Williston, ND 58801
Telephone: (701) 572-6729 Ext. 3

August 22, 2023

To: North Dakota Outdoor Heritage Fund Advisory Board

Please consider this as a letter of support for the Pheasants Forever Mondak Chapter 619 for the years 2024-2026 NWND Habitat and Access Project. This project would encourage landowners to consider the CRP and new grass programs offered by the North Dakota Game and Fish Department. The proposed incentive would help offset our landowner's financial impact of creating wildlife habitat and allowing hunting access.

There is a definite need for additional wildlife habitat and hunting access in Williams County. Creating such habitat, however, is an expensive prospect for our landowners. This project will help offset some of these costs. This project seems to be a win for landowners, wildlife, and sportsmen. The Williams County Soil Conservation District strongly supports the local pheasants forever chapter 619 in this endeavor. It is great to see sportsmen willing to put their money into helping offset some of the landowners' expenses in providing habitat and access. We hope the OHF advisory board will recommend funding the Pheasants Forever Mondak Chapter 619 for the years 2024-2026 NWND Habitat and Access Project.

Kind regards,

A handwritten signature in blue ink that reads "Molly Jugovic".
