RENEWABLE ENERGY PROGRAM CURRENTLY ACCEPTING APPLICATIONS

BISMARCK, N.D. – The North Dakota Industrial Commission recently established a special grant round and is currently accepting applications through April 15th for the North Dakota Renewable Energy Program. The program funds projects that involve research and development of renewable energy technologies and processes that have strong growth potential in North Dakota.

The Legislature established the program in 2007 to provide funding for research, development, marketing and education to foster growth of renewable energy including wind, biofuels, biomass, solar, hydroelectric, geothermal and hydrogen.

For more information on previously approved projects or the program, contact Andrea Pfennig (701-328-3786) or Karlene Fine (701-328-3722) or visit: www.nd.gov/ndic/renew-infopage.htm.

The North Dakota Industrial Commission, consisting of Gov. Doug Burgum, as chairman, Attorney General Wayne Stenehjem and Agriculture Commissioner Doug Goehring, oversees the Renewable Energy Program.
